

Employee involvement

Quotable Quote

"A health & safety problem can be described by statistics but cannot be understood by statistics. It can only be understood by knowing and feeling the pain, anguish, and depression and shattered hopes of the victim and of wives, husbands, parents, children, grandparents and friends, and the hope, struggle and triumph of recovery and rehabilitation in a world often unsympathetic, ignorant, unfriendly and unsupportive, only those with close experience of life altering personal damage have this understanding"

INITIATING CHANGE

- When initiating change remember “People support what they create”

“The magic of employee involvement is that it allows individuals to discover their own potential and to put that potential to work. People develop in themselves pride in workmanship, self-respect, self-reliance and a heightened sense of responsibility”

Philip Calawell, Retired C.E.O., Ford Motor Co.
